## Regular Season Roster Submission Guide

---

### INTRODUCTION

This guide is for leagues that franchise 18U,15U,12U,10U, 8U and 6U regular season teams for DYS softball leagues who do not use TeamPass online registration software to create, submit and print regular season rosters. Regular Season rosters for leagues who do not register players online are created by downloading an Excel spreadsheet template inserting in the template all players and coaches for all teams in each league. Once the spreadsheet is complete, select all rows and columns to copy and paste in the league's roster upload page and click submit. **All regular season coaches and players must be submitted on the league's rosters to be eligible for tournament play.** Tournament Rosters will be created from the league's regular season team rosters of coaches and players only! If you need assistance, please email [support@teampass.com](mailto:support@teampass.com) or [softball@DYSUSA.org](mailto:softball@DYSUSA.org).
